

4. Worksheet: Software Installation

Kelsey Coates

20 1, 2026

Directions:

This is an RMarkdown file. It will allow you to integrate text and R code into one file. Please complete parts 1 and 2 below. Part 3 should be left alone (it should work as needed) When you are done, **Knit** the text and code into a PDF file. Basically, just press the **Knit** button above. After Knitting, please submit via GitHub. Review **2. Reproducible Science with Git and GitHub** Handout if needed. It is due on **January 18th, 2023 at 12:00 (noon)**.

Assignment:

1. Edit your name in the *author* line above (line 3)
2. Print a message from R using the `print` command (practice in console)
E.g., Print “Hello, World!”

```
print("Helllooooo Dolly!")
```

```
## [1] "Helllooooo Dolly!"
```

3. Tell us about your system (just leave this part alone and it will do magic)

Do Not Modify This Part

```
info <- uname(c(Sys.info() [6],  
               .Platform$OS.type,  
               Sys.info() [1:2],  
               R.version.string,  
               .Platform$GUI,  
               system("git --version", intern = TRUE)))  
info  
  
## [1] "COATESK23"                      "windows"  
## [3] "Windows"                          "10 x64"  
## [5] "R version 4.5.1 (2025-06-13 ucrt)" "RTerm"  
## [7] "git version 2.46.0.windows.1"
```
